

EXCITING NEW HORIZONS IN TRANSPORT

The world of land transport and travel is undergoing radical change – and raising exciting questions as it does so.

Petrol, diesel, hydrogen or electric – what will be the future fuel of choice?

How will we move people and goods around in five, 10 or 15 years time?

Who will decide?
Politicians?
Engineers?

Come to the Institute of Mechanical Engineers on **12th October 2016** and gain insight into the future.

Mark Johnson, Group Chief Engineer Advanced Product Creation at Jaguar Land Rover will talk about automotive trends in the automotive industry.

Katherine Scott, 1st Class Hons from Cardiff University in Mechanical Engineering, now working for Triumph Motorcycles will speak about her work as a design engineer.

Christopher Macgowan OBE, former CEO of the SMMT will facilitate the event.

The transport and automotive sectors offer excitement and opportunities for everyone from users to young people who want to work in engineering and design.

Come to the Institute of Mechanical Engineers on 12th October 2016 to be inspired.

Timings

Tea/coffee will be available on arrival at 19:00 for a prompt start at 19:30.

The event itself will last for about an hour and a quarter with questions.

After the auditorium session there will be wine/refreshments and nibbles to allow networking and further discussion.

The evening will conclude at 21:45 at the latest.

How to book

Tickets cost £49

Coachmakers can book online in the usual way.

If you are not a member of the Coachmakers Livery please email mike.moran@btinternet.com to reserve tickets and Mike will explain the procedure for paying for your tickets.
